

Seneca County
Childhood Lead Poisoning Prevention

Parents

**Have your children tested
for Lead Poisoning**

(315)539-1920
Seneca County Public Health

The Seneca County Lead Poisoning Prevention Program provides:

- The Seneca County Health Department provides lead poisoning testing for children up to age six based on a sliding fee scale. For many families there is no charge.
- If your child's does not have a physician or your child is not covered by health insurance call the Seneca County Health Department and we will assist you in obtaining a free blood lead test.
- Free lead poisoning prevention education and materials are available for families, the community and medical professionals.
- Our program provides follow up case management for children with elevated blood lead levels and environmental follow up for determining the potential source of lead within your home.
