Approval of Board Meeting Minutes
The minutes for the March 9, 2013 meeting of the Board of Supervisors were approved as written.

Reports of Standing Committees

Human Services Committee - Mr. Davidson, Chairman. The Committee recommended that the Board of Supervisors adopt a resolution endorsing several appointments to the Workforce Investment Board from the public and private sector.

Indian Affairs Committee - Mr. Shipley, Chairman. Mr. Shipley stated that all board members and members of the Citizens Advisory Committee should have received a copy of the brief prepared by Harris Beach for the US 2nd Circuit Court of Appeals regarding the Cayuga Indians Nation and the tax foreclosure legal action. He expects the scheduling for the Court will be announced in the next few days.

Planning, Development, Agriculture & Tourism Committee - Mr. Earle, Chairman. The Committee approved the following for board resolution: (1) the appointment of Mary Kelleher, resident of Seneca Falls, as an alternate member of the County Planning Board; (2) authorize the County Treasurer and the County Manager as the county’s Delegated Administrators for the NYS Grants Gateway website and processes. The Grants Gateway will serve as a portal for submitting, managing, reporting, and requesting reimbursement for nearly all New York State Grants. As part of this rollout, Seneca County must designate two Delegated Administrators. Delegated Administrators will be responsible for maintaining all aspects of the County’s user information, including adding users, assigning roles, ensuring information is current, and deactivating users in a timely fashion; (3) authorizing the necessary signatures and actions to submit the necessary applications, requests for reimbursements and distribute funds for the 2013-2014 season. The New York State Office of Parks, Recreation and Historic Preservation - Snowmobile Trail Grant-in-Aid Program reimburses the local clubs for safety and maintenance activities for trails that they maintain in Seneca County; (4) authorizing the application and acceptance of the FAA Grant up to $675,000 and appoint McFarland Johnson as project Engineers for project from FAA to Rehabilitate Taxiway and Drainage Improvements, Phase I Construction at the Finger Lakes Regional Airport; (5) authorizing the application and acceptance of the FAA Grant up to $315,000 and appoint McFarland Johnson as project Engineers.

Personnel Committee - Mr. Earle, Chairman. The Committee voted to recommend a board resolution authorizing ESI to provide EAP services and for the Chairman of the Board to sign the contract with Employee Services Inc. in Seneca County through December 31, 2016.
The committee also met in executive session between 8:15 p.m. - 9:00 p.m. to discuss progress of current collective bargaining negotiations with counsel. Invited to attend the executive session were the remaining members of the Board of Supervisors; the Personnel Officer, County Manager, County Attorney, and Jim Roemer (attorney for contract negotiations).

**Environmental Affairs Committee** - Mr. Churchill, Chairman. The Committee discussed several issues. (1) Landfill Summit - a motion was passed recommending a board resolution authorizing the payment of $1,000 (appropriated from the Contingency Fund) for the purpose of providing financial support for this event. However, since the committee meeting, it has been learned that this payment is not necessary. Seneca County has been invited to participate jointly with New York State and Ontario County to discuss solid waste and landfill issues in the region. County Manager Mitchell Rowe is scheduled to be a panelist on behalf of Seneca County. The County has also been asked to provide financial support for the event in an amount not to exceed $1,000; (2) Seneca Energy is proposing a new plant, also planned for the Renewable Resource Park that would utilize methane gas generated by the Seneca Meadows Landfill and convert it to a pipeline-grade natural gas through a high-BTU process. An application has been made to the Seneca County Industrial Development Agency for it to acquire a leasehold interest in the land. In addition, the IDA is considering offering exemptions from sales and use taxes on equipment purchases, a mortgage-recording tax exemption and a partial, real-property tax abatement in the form of a payment in lieu of taxes. Seneca Energy II would operate the facility during the term of the lease, after which it will purchase the facility from the IDA or the leasehold interest of the IDA will be terminated. Mr. Churchill questioned the incentive program offered by the IDA for the proposed plant. He said it was hard to believe that Seneca Meadows needs any backing since it is a multi-billion dollar company. Mr. Churchill attended the public hearing hosted by the IDA on the project. He said that he wasn’t allowed to ask questions. There was no feedback offered by the IDA to Mr. Churchill’s concerns. Mr. Churchill stated that he believes the IDA isn’t forthcoming with information. He wants a meeting with the IDA.

**Public Health Committee** - Mrs. Garlick Lorenzetti, Chairman. The committee voted in favor of a board resolution(s) authorizing the Chairman of the Board to sign an amended contract with Health Research, Inc. (HRI) for the Public Health Emergency Preparedness Grant. The Emergency Preparedness Grant will now be a 5-year grant for the period of time July 1, 2012 through June 30, 2017. The total grant award will be $267,500 ($53,500/year); (2) a board resolution authorizing the Chairman of the Board to sign an amended contract for the Lead Poisoning Prevention Grant to include Appendix R-“On-going Vendor Responsibility”; (3) a board resolution authorizing the Chairman of the Board to sign a contract with Cathy Bond, a consultant who has been working with the Health Department on Emergency
Preparedness planning for eight years. New York State amended the Emergency Preparedness Grant to a 5 year grant (July 1, 2012 to June 30, 2017).

Public Works Committee - Mr. Kaiser, Chairman - The committee approved the following for referral to the Board of Supervisors for a resolution: (1) authorizing the board chairman to execute two contracts with Spear Point Energy LLC. A “Solar Services Agreement” and a “Site Lease Agreement”, to build a solar panel facility on the property of the LEC. NYSERDA provides cash incentives for the installation by eligible installers of new grid-connected Solar Electric or Photovoltaic (PV) systems. In November 2012, Spear Point Energy, LLC submitted an application to NYSERDA and received a rebate from the State for close to $1.0 million to assist in building the system and subsidizing the cost of the energy. The project was awarded in April and a contract will need to be executed by May 15th, 2013 to demonstrate the project is advancing; (2) authorizing the purchase of a 2013 Ford F-450 Regular Cab Pickup with Plow for $61,723.21 by piggybacking on the Chautauqua County bid contract; (3) authorizing the purchase of a 2013 Ford F-150 Super Cab pickup 4 WD for $24,912.82 for use by the Highway Superintendent by piggybacking on the Chautauqua County bid contract. This purchase is replacing a 2006 Jeep with $120K miles. The County Manager plans to use it for other uses locally; (4) authorizing the purchase of a 2013 Terrastar International 4x2 with Tenco Box is $85,995.00 by piggybacking on the Oneida County bid contract. The price on Oneida County bid was less than on NYS contract pricing. This vehicle will be used for small jobs (i.e. tree and brush pickup); and for winter use; (5) authorizing the Majority Leader to execute contracts on behalf of the County Water and Sewer Districts. The Chairman of the Board is authorized to execute contracts on behalf of the County Water and Sewer Districts. He is also the person responsible for executing the same contracts on behalf of Varick Water and Sewer Districts. In order to avoid any appearance of impropriety or conflict of interest, it is requested that the Board authorize the County Manager or the Majority Leader, Acting Chairman under Rule 3 of the Rules of Order to execute contracts between the County Water and Sewer Districts and the Varick Water and Sewer Districts; (6) resolution authorizing the purchase of one chiller to replace a current chiller. Chiller #1 and #2 are 25 years old. We could take the compressor out and save for parts when Chiller #2 breaks down for good. It will take approximately 8 weeks for installation. There is $2.5 million in Capital Reserve Fund. It is estimated to cost $196,000 per chiller installed. Other options would be to replace the defective barrel for $55k - $65k or re-tubing the defective barrel for $41,000. The benefit to replacing parts is the initial cost. There isn’t any guarantee that the chillers won’t break down again. The parts are becoming obsolete on the existing chillers; (7) authorizing the creation of a water shut-off policy for the County Water Department.

The committee voted in favor of refilling four temporary summer positions in the Highway Department to perform mowing and CHIPS work.
The committee voted to lay on the table until the May meeting the issue of the relocation of the Backup E911 center. Seneca County has been in discussion with Finger Lakes Technology Group and Seneca County Industrial Development Agency regarding the site for the County’s E911 Backup Center in a former munitions bunker at the former Seneca Army Depot. A $300,000 NYS Grant would be utilized for construction costs. Rent is proposed in the amount of $1,000 per month for the E911 Backup Center and $300 per month for the Data Backup / Co-Location Facility. A 2% annual increase would commence after the initial five years.

**Government Operations Committee** - Mr. Westfall, Chairman. The Committee voted to refer the following to the Board of Supervisors for a resolution: (1) reappointing Ruth Same as Democratic Election Commissioner for a four year term effective January 1, 2014 through December 31, 2017; (2) proclaiming June as Donor Month in Seneca County; (3) to join NYSAC’s “Mayday for Mandate Relief” for the month of May.

**Finance, Assessment & Insurance Committee** - Mr. Prouty, Chairman. The committee voted in favor of a board resolution authorizing amendments to the 2013 budget for Seneca County for line items for Risk Management, Community Counseling Services, Facilities, and Severance.

**County Manager Remarks**

County Manager Rowe said that on May 27 a Memorial Day Service was scheduled at the Sampson Veterans Cemetery. New York State representatives are expected to attend. There will be a parade, an honors ceremony and an unveiling of a monument dedicated to the cemetery.

Mr. Rowe also said the resolution to replace a chiller was not included on the agenda as recommended by the Public Works Committee at its last meeting because there may be a price reduction on what was originally proposed.

Whereas, the Chairman of the Democratic Committee has filed with this Board of Supervisors, pursuant to Section 31 of the Election Law, a certificate recommending the appointment of Ruth V. Same to the office of Commissioner of Elections; now, therefore be it

Resolved, that Ruth V. Same is hereby appointed Commissioner of Elections in and for the County of Seneca with term of office to commence January 1, 2014 for a four-year term to expire December 31, 2017.

Board of Supervisors Declares May 21, 2013 to Be “Mayday for Mandate Relief” and Urges the Mandate Relief Council to Take Swift Action in Submitting a Package of Mandate Relief Proposals to Governor Cuomo and the State Legislature to Be Voted on This Session

Resolution No. 71-13 moved by Mr. Westfall, second by Mr. Kubasik and adopted.

Whereas, the State of New York mandates (requires) the delivery of State programs using local resources, causing many counties to dedicate more than 80 percent of their entire budget toward the funding of State mandated programs and fixed costs; and

Whereas, the New York State Association of Counties has identified just 9 state mandates that equal 90 percent of all county property taxes levied in 2011 (outside of New York City), consuming $4 billion of $4.4 billion in county property taxes levied. These mandates include: Medicaid, TANF/Public
Assistance Safety Net, Child Welfare Protective and Preventive Care, Special Education Pre-School, Early Intervention, Probation, Indigent Defense, Youth Detention, and Pensions; and

WHEREAS, these State mandates are the root cause of high county property and sales taxes in New York and have led to a decline in the delivery of important local services; and

WHEREAS, these State imposed mandates continue to contribute to New York’s highest in the nation local tax burden for residents and businesses, severely damaging New York’s ability to attract, create and maintain good paying jobs, as well as contributing to population losses to other states; and

WHEREAS, when the State enacted a property tax cap in 2011, a Mandate Relief Council was established to review specific mandates and advance legislative proposals to reduce the statutory and regulatory burden on municipalities;

NOW, THEREFORE, BE IT RESOLVED, that Seneca County hereby declares May 21, 2013 to be “Mayday for Mandate Relief” to demonstrate that the decisions made in Albany have a direct impact on the property tax levy and local community services here in Seneca County; and

BE IT FURTHER RESOLVED, that Seneca County hereby calls on the Mandate Relief Council to take swift action in submitting a package of Mandate Relief proposals to Governor Cuomo and the State Legislature to be voted on by our State Representatives during the 2013 State Legislative Session; and

BE IT FURTHER RESOLVED that the Clerk of the Board shall forward copies of this resolution to Governor Andrew M. Cuomo, members of the New York State Legislature and all those deemed necessary and proper.

During discussion of Resolution No. 71-13, Mr. Kubasik stated he would be voting in favor of the resolution, but he was doubtful it would be effective with Governor Cuomo citing the that within four months of the year, the Governor supported the NY SAFE Act and early voting legislation - both of which impose unfunded mandates on the county level.

Unfinished Business

Chairman Hayssen recognized Mrs. Garlick Lorenzetti who inquired why the third meeting on May 15 with Hillside was not an open meeting. The Hillside meetings address the concerns of the community that neighbor Hillside property and the frequency of runaways from the campus. She said her constituents, among them the owners of the Kountry Kitchen, should be included in the Hillside meetings. They have been involved since the beginning and the Kountry Kitchen suffered the most loss.

Mr. LaVigne, Director of Mental Health Services, who is facilitating the meetings, explained that the opinion of the county attorney is that the meeting does not fall under the New York State Open Meetings Law. The meeting is intended as a working meeting with the different agencies involved to decide the best way to handle the runaway situations. Mr. Reynolds, Chairman of the Public Safety Committee said the meeting doesn’t need to have public attendance. The prior two meetings allowed for the public to attend and to make comment. He said they will follow up with a report of the meeting. Mrs. Garlick Lorenzetti disagreed and stated for the record, “This is crap”.

New Business

Mr. Earle made a motion, seconded by Mr. Churchill to introduce Resolution No. 88-13 under Rule 29 which allows the board to consider a resolution for adoption without being reviewed by the appropriate oversight committee. The motion carried by two-thirds majority of the board members present.

WHEREAS, the fuel facility is in need of repairs and expansion; and

WHEREAS, the total grant would be up to $450,000 with the Seneca County Local Share of $45,000 which has been budgeted for in the 2013 Airport Budget; now, therefore be it
RESOLVED, that the Seneca County Board of Supervisors approves the application to the NYSDOT for the upgrade of the fuel system at the Finger Lakes Regional Airport and that the Chairman of the Board of Supervisors be authorized and directed to sign all necessary documentation to submit this application to the Federal Aviation Administration (FAA) subject to the approval of the Seneca County Attorney.

Under discussion of Resolution No. 88-13, Mr. Bordeau, Director, Planning & Community Development, explained that this resolution was introduced under Rule 29 because this type of grant doesn’t happen every year. The last time it was offered was in 1999.

RESOLVED, that Seneca County Board of Supervisors has the right to opt-out of the contract at the June 11, 2013 board meeting should the data provided not be to their liking.

Under discussion of Resolution No. 89-13, there were several concerns including how much energy will be provided by the solar panel, is the county locked into the annual escalated rate in the proposal, what happens if Spear Point goes out of business; how did Spear Point arrive at the average rate increase for NYSEG; etc.
Based on the discussion and several concerns and questions, Mr. Kaiser made a motion, seconded by Mr. Earle to amend the resolution by adding another Resolved with the text “has the right to opt-out of the contract at the June 11, 2013 board meeting should the data provided not be to their liking”. The amendment carried unanimously.

Chairman Hayssen said that all questions should be directed to the County Manager within seven days who in turn will forward them to Spear Point for answers and discussion can continue at the committee meetings later in May.
