Inspector Findings

Additional Information Collected During Inspection

Comments

Complaint indicated that the bottom of each salad bar plate had a layer of black sludge on it. Upon arrival no plates had anything except build up of cleaner. Staff indicated there were plates that had been set aside, however, no employee was told about the plates having "sludge" on them. Employees and management took all plates and submerged them in a solution of Ultra Kleen and hot water. Each plate was then scrubbed with a Brillo pad to get remaining soap debris off.
