APPOINTMENTS ENCOURAGED

Nothing is more frustrating than driving all the way to our office for help with a problem only to find that the employees you need to see are busy assisting other customers. Given the number and complexity of issues we help with, we want you to meet with the employee best able to assist you.

Please remember to call ahead and make an appointment. This will guarantee that you will be able to meet with someone experienced in the topics you're asking about. It will also reduce your wait time and increase our ability to see everyone in a timely manner. Call (315) 539-1765 for the Waterloo office and (607) 869-9420 for the Willard office.

PROJECT LIFESAVER

unable to be found by family or caregivers. The program is available to anyone that resides in Seneca County and suffers from a cognitive disorder that makes them prone to wandering.

If you would like to enroll in the program, please contact investigator Melinda Marquart at (315) 220-3444 or Lieutenant Tim Thompson at (315) 220-3449.

NEED HELP PAYING FOR MEDICARE?
Ask your New York Medicaid office about these programs.

1. MEDICAID

*Medicaid is a health insurance for people with low incomes. Even if you have Medicare, you can also get Medicaid to lower your health care costs.

Medicaid pays your Medicare deductibles and coinsurances if you see doctors who participate in Medicare and Medicaid or who are in your Medicare private health plan's network. These doctors can't charge you anything for Medicare-covered services.

*To apply for Medicaid, mail in an application or go to your local Department of Social Services office.

*If you have Medicaid, you probably also qualify for the Qualified Medicare Beneficiary Program (QMB). The government will pay your premiums if you are enrolled in the QMB program (see below.)

*Medicaid covers additional benefits, such as dental, vision, and long term care.

*If your income seems a little too high, contact your Medicaid office. You may qualify for **Medicaid spend-down**.

2. QMB- Qualified Medicare Beneficiary Program

*Pays your Medicare premiums. Also, if you enrolled in the QMB program, providers can't charge you Medicare deductibles or cost sharing for Medicare covered services if you see providers who participate in Medicare or are in your Medicare private health plan's network.

*You can have both QMB and Medicaid.

3. SLMB – Specified Low Income Medicare Beneficiary Program

*Pays your Medicare Part B premium

*You can have both SLMB and Medicaid

4. OI- Qualifying Individual Program

Pays your Medicare Part B premium

*You can't have both QI and Medicaid.

Important Tips

- QMB, SLMB and QI are often called **Medicare Savings Programs**. They are also sometimes called the **Medicare Buy-In** or **Medicare Premium Payment**.
- If you are applying for Medicaid and need help paying your Medicare premiums, be sure to apply for a Medicare Savings Program.
- If you think you were wrongly turned down for one of these programs, ask for a State Fair Hearing by the appeal deadline in your denial letter.
