

Dial-A-Friend

Someone to talk to, someone who listens

Dial-A-Friend is a program designed to promote greater communication, friendship, and sharing between generations

For some it may be:

- A chance to meet new people
- An opportunity to share knowledge and experiences with others
- An opportunity to reassure those who are isolated and homebound, that people care and are there to check on them

If you are interested in hearing more about this program, please contact Seneca County Office for the Aging for more details.
