Sprvr. Hayssen offered a motion, second by Sprvr. Trout and carried, to amend Resolution 170-18, adopted at the July 24 special board meeting by replaced the Resolved clause with the following text:

to replace the Resolved clause with the following text:

WHEREAS, this resolution was amended by the Board of Supervisors at the August 14, 2018 board meeting; now, therefore be it

RESOLVED, that the Seneca County Board of Supervisors approved that Method #2 is the accepted method for Centralized Treatment, but Method #2 will not
include the IDA property known as Hillside, and Method #2 will only include the customers that use Five Points for their sewer treatment; and be it further

RESOLVED, that the IDA property that uses the Hillside Treatment Plant will be responsible for all costs related to getting their sewage to Sewer #1, all O&M costs related to these conveyances, the decommissioning of the Hillside Treatment Plant and all costs related to the daily O&M costs of all sewer lines on the IDA property; and be it further

RESOLVED, that the present Sewer #1 customers will only be responsible for their EDU share of debt and treatment at the proposed expanded and renovated Sewer #1 plant.

Reports of Standing Committees

Health & Human Services Committee – Sprvr. McGreevy, Chairman. The committee approved several resolutions that are tonight’s agenda. One resolution in particular will appoint a new Director of Veterans Affairs – Susan Smith. The committee approved her appointment unanimously, and I believe the full board will too.

The Health Department is preparing for the 2018 Annual Household Hazardous Waste Collection Event. Requests for Proposals are being prepared and the application for DEC funding will be submitted after the Board adopts the resolution tonight authorizing the application.

Human Resources & Government Operations Committee – Sprvr. Davidson, Chairman. Other than the resolutions on tonight’s agenda, the Committee authorized refilling the position of License Clerk in the Motor Vehicle Department.

Economic Development & Tourism Committee – Sprvr. Kaiser, Chairman. There are three items on the agenda for tonight and recommended for adoption by Committee: Authorize the submission of an application to Land Bank Community Revitalization Initiative Sponsored by Enterprise Community Partners, Inc. in Support of the Finger Lakes Regional Land Bank; Award EMCOR Services the contract for Plumbing and Mechanical Construction for the base bid amount of $112,500.00; and to amend the contract with Barton & Loguidice for the Route 318 Sanitary Sewer Project to include the cost for administrative support.

Indian Affairs Committee – Sprvr. Hayssen, Chairman. Vehicles have been seen around Seneca Falls marked as “Cayuga Nation Police”. We are inquiring about the legality of a tribal police force for Cayuga Nation, which is not sovereign territory.
Public Safety Committee – Sprvr. Brownell, Chairman. Other than the three resolutions on tonight’s agenda, the committee approved refilling three Sheriff Deputy Recruit positions; and an application for the 2018 Interoperable Communications Grant was approved and adopted by the Board at a special meeting the same night as the committee meetings.

Agriculture & Environmental Affairs Committee – Sprvr. Kronenwetter, Chairman addressed the Nine Element Watershed plan submitted by Seneca Watershed Intermunicipal Organization (SWIO) and why it will benefit the county. Cayuga Lake and Seneca Lake both have increased presence of harmful algal blooms (HABs). The nine elements are intended to ensure that the contributing causes and sources of nonpoint source pollution are identified, that key stakeholders are involved in the planning process and that restoration and protection strategies are identified that will address the water quality concerns. Farmers are not being singled out as the source of pollution run-off. This may contribute to the water pollution, but in the future, grant money may be available for farms to help reduce pollution run-off. The development of nine element watershed plans is the only process we have currently to save the lakes. It works though it may take ten years into the future to see any results.

Public Works Committee – Sprvr. Trout, Chairman. The Committee approved the Final Professional Engineering Report for Seneca County Sewer District 1 & 2 with Alternative #3 Centralized Treatment at Willard. This was amended to exclude Hillside and Five Points from the Method #2 calculation. This was adopted by the Board of Supervisors at a special meeting on the same night as the committee meeting.

Regarding the county recycling program, we recommended a resolution of the Board authorizing the Public Works Commissioner to issue Requests for Proposal for recycling pick-up service. The current contract expires at the end of this year. We discussed factors affecting recycling: dwindling number of area recycling servicers, they can’t stay in business; too many complaints from customers with current service; current service experiences high turnover in staff; costs are increasing, rate could go from $30 to $70.

Regarding the recent road closures for bridge construction and complaints of “treacherous” detours” and “no work activity and road remains closed), the Committee is recommending a county policy on a standard process when roads are closed temporarily such as this. The policy should include who to notify (ie: towns and villages; first responders; the media); include language in contracts that would prevent the contractor from putting the county job on delay while they do other jobs.

Ways & Means Committee – Sprvr. Reynolds, Chairman. The committee approved a resolution to apply for a grant for $50,000 from the Department of Homeland Security. The purpose of the grant is

to assist the county in creating the means necessary to prevent disruption or corruption of our Information Technology system. The deadline to submit the application was August 7th so the Board of Supervisors had a special meeting the same night as the committee meeting and adopted the resolution.

The committee also approved refilling the position for the Finance Director. The candidate must have municipal finance experience. The Personnel Department will screen applicants for the interview process with the county manager. The Board will then interview candidates as recommended by the county manager.

The committee referred one resolution for tonight’s agenda, which is to adopt a revised and improved Information Technology policy.

Report of Special Committees

Sprvr. Trout reported that at the last meeting of the Seneca County IDA, they discussed PILTs and how they are affected with the County opting out of the exemption offered by NYS for solar energy. Megawatts are recommended. The towns are required to opt out separately.

Sprvr. Lazzaro recognized the Community Services Board and the organizers for Empire Farm Days. The Mental Health Department participated in Farm Days with information on suicide and suicide prevention. The organizers for Farm Days offered space free of charge. Margaret Morse, Director of Mental Health Services said a lot of people took the opportunity during Farm Days to register for the Out of Darkness Walk in October at Sampson State Park.

Chairman’s Remarks

Today has been a challenging day especially in southern Seneca County, in the Towns of Lodi, Ovid & Covert.

Tonight we pause to thank the many Seneca County works, Sheriff’s Office and local law enforcement, first responders, NYS and town highway departments and other resource groups throughout the region who responded quickly today to perform rescues, evacuations and set up shelters for the many affected citizens of our county.

I want to recognize Governor Cuomo’s staff, especially Jessica and Kaleigh, who started calling before 7:00 a.m. today to offer State assistance and coordinate the timely visit to the affected areas of Seneca and Broome counties by Governor Cuomo early this morning so he could personally determine our needs and his issuance of a NYS of Emergency, which includes National Guard deployment along with support vehicles and flood response equipment to our area.
We will continue to monitor the situation, repair and re-open roads, bridges and culverts damage by this disaster as soon as possible. Most importantly, considering the severity of this extreme weather event we are most grateful that Seneca County did not have any loss of life.
