Prescription Opiates and Heroin in Seneca County - Scott LaVigne, Director, Mental Health Services. Seneca County had ten opiate / heroin related deaths in Seneca County since 2013. There has been an increase by 121% of arrests for drugs since 2010. In September 2015, the county Department of Human Services reported that for the prior 18 months, 30 children needed to be taken out of their homes and placed elsewhere because of prescription opiate abuse by the parents at a cost of \$13,656 per child for 12 months, the county shares half of the cost. In 2015, of the 75 inmates in the county jail population, 53 had substance abuse problems. Through the efforts of the county's Narcotics Task Force, Substance Abuse Coalition, the Criminal Advisory Board and the county drug court, several measures are currently in place: prescription drug disposal drop-off sites; the recent adoption of the social host local law allowing prosecution of those who host gatherings where drugs are available. Mr. LaVigne recommended that everyone check and track prescribed medications to limit or prohibit access to the medicines kept at home because this is where addiction start. ## **I. CONTROLS**

A. The Purchasing Director, appointed by the Seneca County Board of Supervisors, is the Seneca County Manager. The County Manager may delegate his/her Purchase Director authority to a Department Head, during a known absence, for a defined and temporary deration. In a prolong absence or disability of the County Manager, the Board of Supervisors may designate any county employee as Purchase Director by a duly enacted resolution of the Board. The Purchasing Director's role is to develop and administer the purchasing program of the County.

B. All purchasing procedures will comply with the applicable laws and regulations of the State of New York and the County of Seneca.

C. The Department Heads, in conjunction with the Purchasing Director, will procure all supplies and equipment as needed at the best possible prices in the best possible timeframe and maintain adequate records to document the purchase.

D. Purchases will be made through available state contracts of the Office of General Services (and affiliates), Division of Purchasing, or under County contract pursuant to Section 408-a of the County Law, whenever such purchases are in the best interest of the County or through BOCES contracts whenever practical and in the best interest of the County.

E. Other purchasing contracts for materials, equipment and supplies involving an estimated annual expenditure of more than \$20,000.00 require public advertising, sealed bids and an award by resolution of the Seneca County Board of Supervisors.

F. Equal opportunity will be provided to all responsible suppliers to do business with Seneca County. The Purchasing Director will be responsible to develop and maintain a list of potential bidders for various types of materials, equipment and supplies.

G. Where formal bidding procedures are not required by law and/or resolution of the Board of Supervisors, quotations will be solicited in a manner prescribed in this policy.

H. Purchases from Seneca County vendors will be made whenever possible. Seneca County vendors will be given consideration when their price meets or is within 10 percent of other bids and state contract prices, or the service provided in conjunction with the purchase merits buying the item locally (i.e. service is more expedient or less expensive). In addition, purchase contracts may be awarded on the basis of best value in accordance with Local Law 01-2015.

I. County departments will strive to purchase materials, equipment and supplies from uniform vendors when consistent with the operational goal in the interest of efficiency or economy.

J. No official or employee of Seneca County, involved in the decision of an award, can have a financial interest in any contract entered into by the County. There will be no acceptance of gratuities, financial or otherwise by anyone with a financial interest with any supplier of materials or services to the County.

K. The County of Seneca will not be deemed responsible for commitments made circumventing these procedures.

L. The Purchasing Department and Department Heads will issue Purchase Orders only after first determining that the unencumbered balances of budgetary appropriations are adequate to cover such obligations.

M. While it is primarily the responsibility of the departments to obtain items and maintain functionality, the County Purchasing Department will from time to time purchase items in quantity. This will include similar items that are being purchased by several departments such as computers, furniture and fixtures and office equipment. The Purchasing Department will notify departments when this process is being utilized.

## **II. GENERAL GUIDELINES AND AUTHORITY TO PURCHASE**

### **A. Planning: Anticipate your needs.**

Having established what you need and within the limitations of your budget, requisition these needs as far in advance as possible.

Departmental Heads may initiate the processing of and grant the approval for requisitions of up to and including \$10,000.00. The Purchasing Department is expected to provide oversight and question, as appropriate, the information provided in the requisition. The quantity, quality, delivery date, delivery method, etc. should be considered while in pursuit of county-wide efficiencies. The Purchasing Director retains the authority to deny any purchase and is the approval authority of requisitions between \$10,000.00 up to and including \$20,000.00.

Individual departments will provide adequate catalogs, references, descriptions and ancillary information of required items so that the Purchasing Department is able to knowledgeably procure the desired commodity and/or services.

#### **B. Authority to Purchase Goods and Services:**

The following guidelines were adopted in recognition of the General Municipal Law, Section 103:

1. Expenditures exceeding \$500.00 up to and including \$10,000.00 require 3 written quotes and Department Head or Purchasing Director approval.
2. Expenditures exceeding \$10,000.00 up to and including \$20,000.00 require 3 documented written quotes and the approval of the County Manager
3. All goods and service purchases exceeding \$20,000.00, or public works contracts exceeding \$35,000.00, require competitive bidding as detailed below.

#### **C. Competitive Bidding**

General Municipal Law, Section 103 requires purchase contracts exceeding \$20,000.00 and public works contracts exceeding \$35,000.00 be awarded to the lowest responsible bidder after public advertising requesting submission of sealed bids. The exception to awarding a contract to other than the lowest responsible bidder is; purchase contracts may be awarded on the basis of best value in accordance with Local Law 01-2015.

**(FAXED BIDS WILL NOT BE ACCEPTED).** Seneca County will bid those items of like or similar nature where it is reasonably anticipated that the aggregate (total) amount of such items will exceed \$20,000.00 in a fiscal year. This process will be by sealed bids. An exception will be for Public Works projects.

##### **1. NON-COLLUSION CERTIFICATION**

If competitive bidding is required by law, each bid must contain the following 'Non-Collusion Certification'

- a. By submissions of this bid or proposal, the bidder certifies that:
  1. The bid or proposal has been independently arrived at without collusion with any other bidder or with any competitor or potential competitor.
  2. The bid or proposal has not been knowingly disclosed, prior to the opening of the bids or proposals for this project, to any other bidder, competitor or potential competitor;
  3. No attempt has been or will be made to induce any other corporation to submit or not to submit a bid or proposal;
  4. The person signing this bid or proposal certifies that he has fully informed himself regarding the accuracy of the statements contained in this certification, and under the penalties of perjury, affirms the truth thereof, such penalties being applicable to the bidder as well as to the person signing in its behalf.

2. All Public Works contracts and projects exceeding \$35,000.00 shall be awarded to the lowest responsible bidder and will follow prevailing wage laws. The term "Public Works Contract" applies to those items or projects involving labor or both materials and labor.

3. Bid specifications shall be prepared by the Department Head in conjunction with the Purchasing Department. Detailed specifications, when required, will be approved by the Purchasing Director. All bids will include a standard bid tabulation form to be completed by each vendor.

4. The Department Head will arrange for the Purchasing Department to have a legal notice printed in the official newspapers of the County and will also establish a date and time for the opening and reading of the sealed bids.

5. The bids will be opened by the Department Head or his/her designee and the Purchasing Director or his/her designee. All interested parties may attend the bid opening. If no spectators are present, two (2) or more County officials and/or County employees shall witness the bid opening. Any bids arriving after the time designated shall not be considered and will be returned unopened. Telephone and facsimile transmitted bids are not accepted on formal bids.

6. A record must be made of all bids. The bids are then turned over to the Department Head for review to ensure the bidders have complied with the bid specifications, to make a cost analysis and to make a recommendation regarding the bid award (generally made to the lowest responsible bidder). If the low bidder does

not meet specifications or, for some other reason does not meet the necessary standards or requirements to be given the award, a recommendation to award the next qualified low bidder would be given.

When there is a discrepancy or a question as to whether bid specifications are met, the Department Head must contact the County Attorney prior to contacting the bidder. The Department Head shall have the County Attorney's approval prior to recommending award to another bidder if other than the low bidder.

**D. Insufficient Appropriations:**

In the event that an appropriation balance is insufficient, the Purchasing Department will reject and return the purchase requisition to the department. To accommodate an increase in funds, the Department Heads will proceed as follows:

1. All notifications/requests for transfer or an increase in appropriations will be in writing (email preferred) and forwarded to the County Manager.
  - a. A Department Head can authorize a cumulative transfer request that is \$10,000.00 or less from any budget category line(s) within the same budget category (.1's, .2's, .4's, etc.)

- b. The County Manager can authorize a cumulative transfer request that is \$20,000.00 or less from any budget line(s) to other line(s) within the same departmental budget.
  - c. All other transfers will require Board resolution.
2. All notifications/requests for transfer must include; specific dollar amounts, a justification of need and an analysis of the impact on the line item from which the transfer is being requested.

All transfer authorizations are filed with the County Treasurer or Finance Directorate as appropriate. The Treasurer or Finance Directorate will make the appropriate budget revisions. The requesting Department or Purchasing will then resubmit the purchase requisition.

### **III. DEPARTMENT LEVEL PURCHASE REQUISITION:**

**A. Purpose:** Provides a method of initiating the purchase requisition process for goods and services. Provides a formal record, within the department, that such goods and/or services are requisitioned. Provides the Purchasing Department with the proper authority to prepare a purchase order.

6. Quantity
7. Unit price
8. Extension and total cost
9. Expenditure account code

11. Purchase order number

**D. Responsibility:** Purchase orders will be completed before a purchase is made. This includes a requirement for Purchase Orders for items approved by resolution of the Board of Supervisors. The sole exception is emergency purchase orders to be described later.

## **V. BLANKET PURCHASE ORDERS:**

**A. Purpose:** Blanket purchase orders or open end accounts may be issued to vendors for purchases of those items considered to be of an immediate need or for purposes of consolidation of purchases. The reasons for the use of blanket purchase orders are twofold:

1. To eliminate the necessity for the issuance of separate orders for groups of items which are purchased frequently from the same vendor. An example of this would be gravel for highway department use.
2. To permit the department to purchase items of this nature on an "as needed" basis when there is no provision to maintain an inventory.

**B. Preparation:** Same as regular purchase orders.

**C. Responsibility:** The amount and time of the blanket purchase order will be determined by the respective Department Head in conjunction with the Purchasing Director. It should be based on information available in the adopted budget, records covering previous fiscal years and data obtained from the Department Head involved. The department must keep a record of the purchases to insure that they do not exceed the amount allowed by the blanket purchase order.

When supplies are delivered or picked up, receipts, delivery slips, or other documents transmitted by the vendor will be signed by the individual receiving the supplies. The blanket purchase order will also be attached to these documents and submitted for payment.

In the event of overages, a subsequent, blanket purchase order will not be merely issued "after the fact". The Department Head will submit a new requisition for payment.

## **VI. CONFIRMING PURCHASE ORDERS**

**A. Definition:** To provide a purchase order number in cases where a necessity for immediate action exists.

1. Emergencies
2. Convenience: Whereby, pricing has been deemed competitive or predetermined by the department and immediate receipt of merchandise is needed to receive the price.

**B. Procedure:** When a department has an urgent situation, the following procedure is followed:

1. Prior to calling the Purchase Department, the requisitioning department will have the following information:
  - a. The reason the purchase is urgent
  - b. The department name and budget code
  - c. A complete description and accurate cost of the item(s) to be purchased
  - d. The name and address of the vendor from whom the goods will be purchased
2. Requisitioning department will verify with the County Treasurer or Finance Directorate (as appropriate) the necessary budgetary appropriation.
3. The County Manager or the appointed representative will determine if a purchase is in fact urgent.
4. If the County Manager rules an urgent situation does exist, it will be the County Manager's discretion to select the vendor. In these cases, the immediate availability of the required goods or services will be given prime consideration in the selection of the vendor.
5. The department prepares the confirming purchase order and provides the regular distribution.
6. The individual who picks up the item or items from the vendor must obtain a detailed invoice containing:
  - a. Quantity and description of items purchased

- b. The unit and total cost
  - c. The signature of the person receiving the goods
7. The department will prepare a requisition containing the same information as would normally be included, along with the purchase order number assigned. The requisition should be marked confirming purchase and forwarded to the Purchasing Department the same day.

**C. Responsibility:** The Purchasing Department will not approve a confirming purchase order to circumvent established procedures.

## **VII. RECEIPT OF GOODS AND SERVICES**

If the Purchasing Department receives any claim for materials, supplies or services absent an issued purchase order, the County Manager has the authority to deny the payment of such claim.

Department Heads may authorize minor deviations between a purchase order and billing invoice. Should a "significant increase" ( $\geq 20\%$  or  $\geq \$100.00$  regardless) occur between the price or terms indicated on the purchase order and the price of any item on an invoice or a total invoice exceeding \$100.00 from expected; the written approval of the Purchasing Director must be obtained on the invoice as support for the payment.

**A. Inspection and testing:** Goods and materials will be inspected at the time of receipt to detect any damage or defects. This inspection will verify the materials are; free of damage, of proper quantity, of expected quality and in accordance with all aspects of known specifications. The receiving County employee will sign and forward any applicable shipping documents to the destination Department to document the accomplishment of this inspection.

In the event of rejection, for whatever purpose, the Purchasing Department must be notified immediately. The Purchasing Department will maintain documentation of sub-standard performance and take appropriate action.

**B. Receiving of Equipment:** Any piece of equipment with a value of \$1,000.00 or more, when received must be registered with the Insurance Director and put on the central inventory control report by using the appropriate fixed asset forms.

## **VIII. EXCEPTIONS TO THE PURCHASING SYSTEM**

- A. All single purchases of \$500.00 or less. The Purchasing Department can be used as a resource in securing these items.
- B. Contracts for professional services.
- C. Utility bills.
- D. Service contracts for a fixed monthly or annual rental.
